

ALCONA BY THE LAKE

Value-packed townhomes and singles coming soon to Innisfil

The opportunity to live near Lake Simcoe in a beautiful townhome or a single-family home for an incredible price is just around the corner. Soon, Country Homes will introduce Alcona by the Lake in Innisfil. Situated on the south side of Innisfil Beach Road, east of Yonge Street, this community will place residents just two kilometres from the water. Imagine having the opportunity for water sports so close at hand. Plus, the numerous amenities in this booming town make the lifestyle here ideal for individuals, families and empty-nesters alike. The town features parks, soccer pitches, ball diamonds and ice rinks for active resi-

dents, as well as the Innisfil Beach Park Trail system, which is just north of the Country Homes' community.

Residents will also appreciate living south of Barrie and just minutes north of Toronto. With everything these cities have to offer, Alcona by the Lake will be a commuter's and a shopper's dream. It's easy to understand why Innisfil is one of Ontario's hottest residential destinations right now.

Within this appealing setting, Alcona by the Lake offers brick and stone townhomes, and all-brick singles on 35-, 40- and 50-foot lots situated on beautifully planned former golf course land with an abundance of trees. Eventually

encompassing 600 homes, this architecturally controlled community will provide a stunning showcase of Country Homes' penchant for design. In fact, exceptional exterior and interior design is what distinguishes these bungalows and two-storey homes from the competition. Pitched gables and inviting porches create charm from first glance, and each townhome and single comes complete with a paved driveway and sturdy 25-year shingles.

The inside story is just as lovely, with the homes offering wonderful kitchens with islands, as well as spa-style ensuites with a double vanity, an oval tub and separate shower, a second-floor laundry room, nine-foot main floor ceilings, rich ceramics and more (all as per plan). In addition, all the single homes include a double-car garage.

Country Homes' townhomes will range in size from 1,240 to 1,800 square feet and will begin in price from \$199,900. The singles on 35-, 40- and 50-foot lots will range from 1,450 to 3,000 square feet and will be priced from \$282,900. Considering this community's location, Country Homes' exceptional design, and the impressive roster of features and finishes, the inherent value in these homes is appealing.

For more than 30 years, the teams at Country Homes have been building fine residential communities across the Greater Toronto Area. The company is committed to providing excellence in design, construction quality and service. ■
